MEOW HAS FOUND A NEW HOME!

When Kirkland's Houghton Village was purchased with a plan for urban renewal, MEOW began a thoughtful search for a new home. We are thankful to have found a lovely space, rooted within the same community that has supported us for so many years.

Based in Kirkland for 20 years, we play a unique role in serving local cats, our neighbors, and championing pet population management, while also being a trusted partner within the broader animal rescue network across our region.

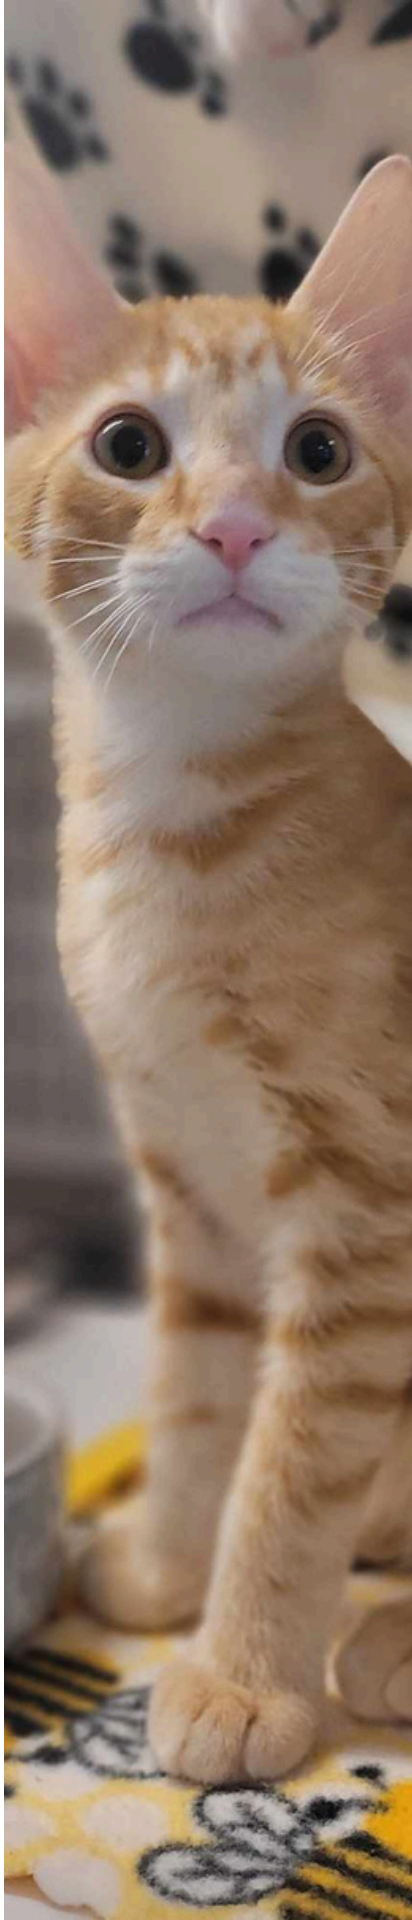

While the timing of this transition was unexpected, we're inspired by the potential of creating a new shelter which reflects the evolution of focused care in the animal rescue world over the past two decades while using funds responsibly. In our new home you will find the same heart. Our skilled staff, volunteers, and community partners will continue to care for cats and kittens.

OUR FUTURE FOOTPRINT

SAME HEART NEW HOME
MEOW CAT RESCUE

AN IMPROVED CAT-CENTRIC DESIGN

Thoughtfully designed for the movement of cats from initial Intake to the Adoption floor, to minimize stress and illness.

Increased efficiency of medical care through a re-organization of treatment areas and updated equipment.

A more supportive space: calm zones for cats that support behavioral monitoring and therapy, a more intuitive layout for staff and volunteers, a welcoming environment for the public, and the benefit of natural light for all.

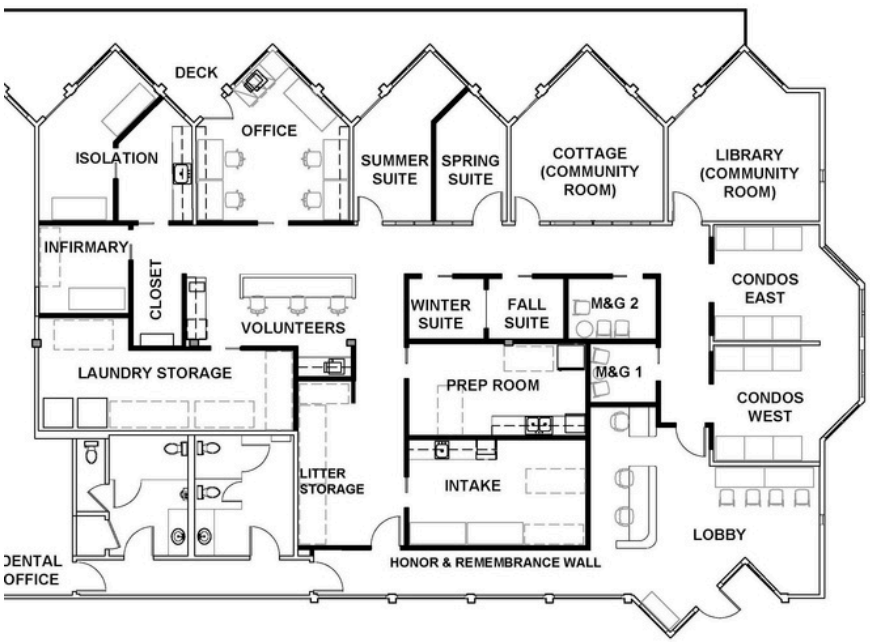

MAKING EVERY SQUARE FOOT COUNT

Having fewer and shorter illnesses can decrease their shelter stays, which in turn can increase the number of cats available for adoption without the need for more space and the associated costs.

Upgrading our volunteer and staff work areas by creating dedicated spaces, such as a centralized laundry and bedding station, improves workflow and gives us more time for what matters most.

Smoothing out our daily routines helps to provide more opportunities to explore and execute community-driven programs.

THE BUDGET

SAME HEART NEW HOME
MEOW CAT RESCUE

We're asking our community to come together to raise funds for vital, everyday tools to improve our capacity. These items might seem small, but it is this cost-effective, incremental innovation and the culmination of all these benefits that make the cats feel safer, more relaxed and comfortable, and allow us to potentially increase the number of rescues.

Thanks to our lead donors, who came together and raised the initial funding for the relocation, the expenses to build our vision are secured. Their generosity allows us to now focus on providing the everyday tools to further improve our shelter residents' quality of life.

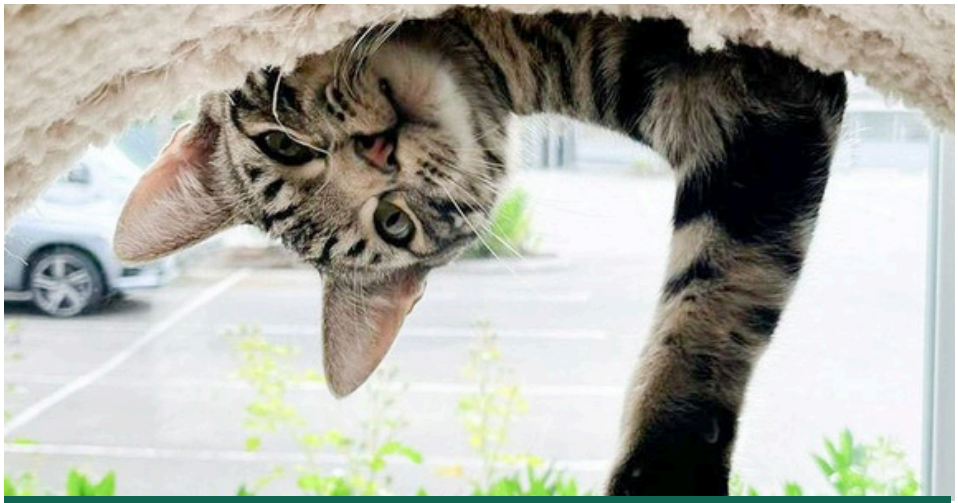

NEED	PROJECTED COSTS
HOUSING UNITS & FURNITURE Our housing units have provided sanctuary for countless cats and have been well-loved. New units with customization keep our residents more comfortable and bring extra flow to our daily operations. Larger community rooms mean more furnishings which serve as habitat elements for cats as well as doubling as storage space.	$85,000
MEDICAL EQUIPMENT Replacing outdated medical tools that are reaching the end of their lifespan and investing in equipment to enable certain in-house diagnostic tests will ensure less stress for the cats and reduced costs.	$15,000
TECHNOLOGY An upgrade to our IT infrastructure and hardware will reduce time lost to outages and troubleshooting, ensuring our team's time and hearts stay focused directly on cat care.	$12,000
TRANSITION EXPENSES Operational costs and community needs continue to rise each year. Resources to help bridge our transition ensure we can respond to critical situations with the greatest need without disruption in our new space.	$250,000
PROJECTED NEED	$362,000
